

## The power to watch anything, anywhere

The 3G+4+ Tiling Transmitter adds video tiling to the Ultra HDMI over IP matrix switching system.

The Just Add Power 3G+4+ Tiling Transmitter can be added to a currently installed Just Add Power 3G system to show any four sources onto a single display.

Watch video in multiple formats simultaneously: single-screen, video wall, or tiled video at the same time!

**Seamless Integration!** The 3G+4+ Tiling Transmitter is fully compatible with all 3G installations. Add a Tiling Transmitter to provide tiling to all displays. Multiple tilers can be combined to add even more videos on a single display.

### 3G+4+ Tiling Transmitter
